**Before learning about TBS, let's see who
is the founder of TBS**

This is **Ashik Ruben**

AR is also the founder of PropFirmBuy.com
a platform created to support prop firm
traders with tools, discounts, and strategic
insights to maximize their funded journey.

This is **AR** the founder of the CRT
entry method TBS

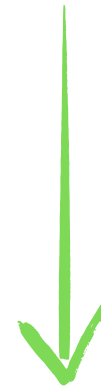

TBS = Turtle Body Soup

Now let's see what is TBS ?

The first candle which manipulates the old high/low with a body close candle is called as **TBS**

Also **TBS** is used to identify the false breakout in the market

TBS stands for Turtle Body Soup

When and where does **TBS should be used ?**

TBS should be used on the **LTF** where
we gonna make the entry

LTF = Lower Timeframe

Why **TBS is used on **LTF** for making entry ?**

TBS was used on LTF for making entry because it's used to identify the false breakout in the market and it gives us more **winning trades**

Conclusion

If you make the entry on LTF by using Turtle Body Soup - TBS you will be safe from the false breakout which happens in the market and you will get more winning trades
